Singapore

SKILLS

- Python
- HTML & CSS
- JavaScript
- SQL
- Problem Solving
- Teamwork & Collaboration

LANGUAGE

- English
- Myanmar (Burmese)
- Chinese [Beginner]

ABOUT ME

I am currently studying Computer Science at SIM Global Education.
I am passionate about learning how systems work by building my own hands-on projects or studying open-source code from other developers' work. My goal is to keep deepening my technical foundation, turn ideas into practical applications.

PROJECTS

Web Development Project

SIM Global Education | 2026

- Developed a multi-page Singapore Scam Awareness website.
- Used HTML, CSS, and JavaScript to create interactive features.
- Worked as part of a team and contributed to the design and development.

Personal Projects

Discord Bot Development | 2026

- Developed a Discord bot using Python.
- Implemented commands, roles, and server functionality.
- Practised Python programming, debugging, and working with APIs/libraries.

Personal Projects

PCalculator | 2026

- *Developed a functional calculator using HTML, CSS, and JavaScript.*
- *Implemented arithmetic operations and interactive buttons using JavaScript.*
- *Designed and styled the calculator interface using HTML and CSS.*
- *Practised JavaScript logic, event handling, and basic DOM manipulation.*

Programming & Software Development

Personal Learning | 2025–Present

- Currently developing skills in Python, JavaScript, SQL, Git, and web development.
- Build small applications to strengthen programming fundamentals.
- Explore open-source projects to understand how real-world software is structured.

EDUCATION

SIM Global Education
Diploma in Information Technology
2027 - Present

SIM Global Education
Foundation in Information Technology Studies
2026

IIP international school
Completed IGCSE with A*s
2024-2025
